

Guidance for staff when a pregnant or recently pregnant* person presents to a non-Maternity setting in Northwick Park Hospital

Pregnant or recently pregnant* person:

- Presenting with acute medical or surgical problem
- In a non-maternity setting
- May or may not have their pregnancy booked in the local maternity unit

Any gestational age

After doctor assessment,
contact gynaecology team
via registrar on bleep 2546

If admitted, all patients require:

- Location of care discussion with senior clinicians as MDT
- O&G team will review within 24 hours and discuss with maternal medicine team as needed
- Appropriate maternity VTE risk assessment
- Review of any safeguarding concerns

Consider discussion with NW London Maternal Medicine Network team on imperial.mmc@nhs.net.

* Up to 6 weeks after the end of pregnancy (including miscarriage, termination or other loss)
