

Guidance for non-Maternity staff when a pregnant or recently pregnant* person presents to a non-Maternity setting in West Middlesex Hospital

Pregnant or recently pregnant* person:

- Presenting with acute medical or surgical problem
- In a non-maternity setting
- May or may not have their pregnancy booked in the local maternity unit

Any gestational age

For advice following doctor assessment, contact:
O&G reg bleep 532
Labour ward co-ordinator
ext. 5946/7

If admitted, all patients require:

- Location of care discussion with senior clinicians as MDT
- Appropriate maternity VTE risk assessment
- Review of any safeguarding concerns

The Obstetric Medicine team can be contacted via switch if required.

Consider discussion with NW London Maternal Medicine Network team on imperial.mmc@nhs.net.

* Up to 6 weeks after the end of pregnancy (including miscarriage, termination or other loss)
